COVID-19 POLICY

MAY 21, 2020

Due to the COVID-19 pandemic and the associated laws passed by both the Territorial and Federal governments, Rocking Star Adventures is adopting the following policies:

Face covering requirements for all passengers on our Cessna 172, Cessna 206 and Piper PA 18 are as follows:

(This directive in effect since Thursday, May 22, 2020 at 12:00 pm EDT.)

The Government of Canada is directing that all travelers (with limited exceptions) must wear a removable non-medical mask or face covering large enough to cover their mouth and nose during their travel through Canadian airports, Air Operator Facilities (Rocking Star Adventures Ltd office) and in flight.

Passengers must bring their own non-medical mask or face covering. Passengers who do not have mandatory face covering will not be allowed to travel. Please note that these coverings do not need to be medical masks. Any face covering including a scarf or similar item is acceptable. Please refer to the current [Public Health Agency of Canada's guidance](#) on face coverings.

At a minimum, travelers will be asked to wear the non-medical mask or face covering:

- at the Air Operator's Facilities (Hangar and Floatplane Base);
- during the flight when they cannot physically distance from others, including at all times when they are 2 meters or less from another person, except another occupant of the person's private home;
- or as directed by an official of the Air Operator, a Canada Border Services Agency officer, or a Canadian public health official.

The Yukon is currently **requiring** all new arrivals to the territory (both domestic and international) to self-quarantine for 14 days. Any passengers who are showing **any** of the following symptoms will be denied boarding:

- Fever
- Dry Cough
- Nasal Congestion
- Runny Nose
- Headaches
- Difficulty Breathing

We ask that anyone showing any of these symptoms refrain from visiting our facilities. You may contact us at the information below.

This Policy will be updated to reflect changes made in government regulations as they happen. We will endeavor to keep all clients informed, but in this rapidly changing environment that may not be entirely possible.

For any enquiries please contact info@rockingstar.ca or (867)841-4322. Thank you for your cooperation.

FACE COVERING REQUIREMENTS FOR AIR TRAVELLERS

The Government of Canada is asking that **all travellers have a removable non-medical mask or face covering large enough to cover their mouth and nose during their travel through Canadian airports and in-flight.**

Travellers must confirm that they have in their possession the mandatory non-medical mask or face covering as part of the registration or check-in process otherwise they will **not** be allowed to continue on their journey.

At a minimum, travellers will be asked to wear the non-medical mask or face covering:

- ✓ at **airport screening checkpoints**;
- ✓ **during the flight** when they cannot physically distance from others, including at all times when they are 2 metres or less from another person, except another occupant of the person's private home; or
- ✓ **as directed** by an official of the air operator, the Canadian Air Transport Security Authority, a Canada Border Services Agency officer, or a Canadian public health official.

EXCEPTIONS

Face coverings must **not** be worn under the following circumstances:

- ✗ **children under two** years old;
- ✗ passengers **with breathing difficulties unrelated to COVID-19**;
- ✗ **at the boarding gate**, after handing documents to the air carrier representative, a passenger will be asked to step back to an appropriate distance and **lower their face covering for identity verification**. After the verification is complete, the passenger can then **re-cover their mouth and nose before** collecting their documents;
- ✗ **during the flight**, when the safety of the person could be endangered by wearing a face covering; or when the person is eating, drinking or taking oral medications; and
- ✗ **at the Customs-controlled area** of the airport. Travellers will need to **lower their face covering to have their photo taken at the Primary Inspection Kiosk** or when asked to do so by a Canada Border Services Agency officer or a Public Health Agency of Canada and/or provincial or territorial official.

Wearing a face covering over the mouth and nose is an important additional measure that all travellers can take to protect those around them. Air travellers are encouraged to **wear a non-medical mask or face covering whenever possible**, especially in situations where physical distancing guidelines cannot be maintained. Refusal to comply with the wearing of a non-medical mask or face covering could result in a fine of \$5,000.00. Travellers are also reminded to **practice good hygiene** by frequently washing their hands and sneezing into their sleeve or a tissue.

NON-MEDICAL MASKS OR FACE COVERINGS SHOULD:

- ✓ Be made of multiple layers of absorbent fabric (e.g., cotton);
- ✓ Cover the mouth and nose without gaps;
- ✓ Fit securely to the head with ties or ear loops;
- ✓ Allow for easy breathing;
- ✓ Be changed as soon as possible if damp or dirty; and
- ✓ Stay the same shape after machine washing and drying.

NON-MEDICAL MASKS OR FACE COVERINGS SHOULD NOT:

- ✗ Be placed on infants (e.g., children under the age of 2 years old);
- ✗ Be placed on anyone who has trouble breathing;
- ✗ Be placed on anyone who is unconscious;
- ✗ Be placed on someone who is incapacitated or unable to remove it without assistance;
- ✗ Be made exclusively of plastic sheeting or materials that easily fall apart (e.g., tissues);
- ✗ Be shared with others; and
- ✗ Impair vision or interfere with tasks.

EXAMPLES OF REMOVABLE NON-MEDICAL MASKS AND FACE COVERINGS MADE OF CLOTH:

SEWN MASK

NO-SEW MASK USING A T-SHIRT

NO-SEW MASK USING A FOLDED SCARF/BANDANA AND RUBBER BANDS/HAIR TIES

For more information on making face coverings consult: www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection/prevention-risks/instructions-sew-no-sew-cloth-face-covering.html#a5
